*Internal, deliberative*

Hi all,

Drexel has sent their letter regarding chlorpyrifos uses in response to our recent discussions. Please see below and attached for details.

Thank you,  
Trish

**Subject:** Drexel Chlopyrifos importance.

Dear Dana and Patricia:

Please find attached response you requested per our most recent discussions. We have listed out the importance of the continued use of Chlorpyrifos to Drexel and many of the crops and use sites that are valuable to us as well as producers of these commodities. Please let us know if you have any further questions and need to discuss prior. Again, based on most current available and viable data we feel that the compound and the end use products containing the this active can safely continued to be used as a 1x FQPA safety factor. We hope the agency will make this same positive finding as well.

Thanks for you efforts and review of Chlorpyrifos.

Regards,
